

## Chocolate Cheesecake (serves 15)

2  $\frac{3}{4}$  cups of cream cheese

3  $\frac{4}{5}$  cups of milk

18  $\frac{3}{7}$  cups of digestives

6  $\frac{3}{8}$  cups of sugar

2  $\frac{1}{6}$  tablespoons of vanilla

3  $\frac{2}{5}$  eggs

13  $\frac{1}{4}$  cups of chocolate

24  $\frac{1}{3}$  cups of whipping cream

I had made a cheesecake for my brothers birthday and I was super excited because it was all my recipe but then I found out that he had invited 10 more people on the last night! If

he had originally invited 15 how much of each of the ingredients would he need if he invited 25 people? How much of each of the ingredients would I need now?
